

Entrex is the source to **find, track, manage, research and trade** interests in entrepreneurial companies.

Entrex

An exchange for the better.™

Entrex licenses TIGRcubs™ to individual venture investors, fund managers and financial institutions – allowing these traditional capital players to ***harness the revenue performance returns of select entrepreneurial companies which meet their unique investment criteria.***

Licensing

Origination

Entrex created the TIGRcub™ instrument & originates qualified TIGRcub™ investment opportunities from a subset of millions of private companies, across the nation & around the world, **providing the investment community access to a whole new category of private company investment opportunities.**

Entrex services TIGRcubs™ – performing a variety of support functions that allow investors and investment managers to ***understand, manage, assess and value their interests in entrepreneurial companies.***

Servicing

Reporting

Entrex's on-line private company financial reporting platform offers discipline and automation similar to the SEC's EDGAR, but at a level of detail suitable for private entities – **providing the investment community a whole new level of *accountability and transparency* into private company investment opportunities.**

Entrex's TIGRcub™ rating methodologies are a standard for rating individual TIGRcub™ contracts, which structures portfolio expectations – **providing the investment community the ability to *assemble portfolios of rated investments* that can be securitized and taken into the public capital markets.**

Rating

Trading

Entrex envisions creating a trading market for individual TIGRcub™ investments and TIGRcub™ funds – **offering investors access to financial products with *cash-on-cash returns* in a previously difficult to reach alternative sector.** Although not available today, as TIGRcubs™ proliferate, an active trading market is anticipated.

Entrex offers the investment community efficient licensing, origination, servicing, reporting, rating and trading of private company financial instruments.
